For those who prefer not to make a subtle entrance.

When people see you driving an International® MXT™, they don't forget it. They look up from their tricked out SUVs, and realize they don't have the coolest ride on the street anymore. They're even more jealous when you press your foot down and let the force of 300 horsepower leave them in awe of what they just witnessed.

And while you're savoring all the attention, you'll be relishing in the lush comfort of the spacious interior. Features like touch-screen CD/DVD radio, GPS navigation, ivory-faced sport gauges and leather seats make you question whether it looks better from the inside or from the street.

Starting at \$125,000 the MXT Limited will be available in the Summer of 2007

The International ® MXT Limited Edition will get everyone's attention. The bold and rugged exterior looks combined with the most luxurious interior make this truck a VIP Club on wheels.
